The U.S. Securities and Exchange Commission has not approved or disapproved these securities or passed upon the adequacy or accuracy of this prospectus. Any representation to the contrary is a criminal offense.

Beginning on January 1, 2021, as permitted by regulations adopted by the Securities and Exchange Commission, paper copies of the Fund's shareholder reports will no longer be sent by mail, unless you specifically request paper copies of the reports from the Fund or from your financial intermediary, such as a broker-dealer or bank. Instead, the reports will be made available on a website, and you will be notified by mail each time a report is posted and provided with a website link to access the report.

If you already elected to receive shareholder reports electronically, you will not be affected by this change and you need not take any action. You may elect to receive shareholder reports and other communications from the Fund electronically by contacting your financial intermediary.

You may elect to receive all future reports in paper free of charge. If you invest through a financial intermediary, you can follow the instructions included with this disclosure, if applicable, or you can contact your financial intermediary to inform it that you wish to continue receiving paper copies of your shareholder reports. If you invest directly with the Fund, you can inform the Fund that you wish to continue receiving paper copies of your shareholder reports by calling 866-362-8333. Your election to receive reports in paper will apply to all funds held with your financial intermediary if you invest through a financial intermediary or all GQG Funds if you invest directly with the Fund.

# GQG Partners Global Quality Equity Fund

## Investment Objective

The GQG Partners Global Quality Equity Fund (the “Fund”) seeks long-term capital appreciation.

## Fund Fees and Expenses

This table describes the fees and expenses that you may pay if you buy and hold Investor Shares, Institutional Shares and R6 Shares of the Fund. You may be required to pay commissions and/or other forms of compensation to a broker for transactions in Institutional Shares, which are not reflected in the table or the example below.

### *Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)*

	Investor Shares	Institutional Shares	R6 Shares
Management Fees	0.65%	0.65%	0.65%
Other Expenses	0.84%	0.59%	0.59%
Shareholder Servicing Fee	0.25%	None	None
Other Operating Expenses <sup>1</sup>	0.59%	0.59%	0.59%
Total Annual Fund Operating Expenses	1.49%	1.24%	1.24%
Less Fee Reductions and/or Expense Reimbursements <sup>2</sup>	(0.49)%	(0.49)%	(0.49)%
Total Annual Fund Operating Expenses After Fee Reductions and/or Expense Reimbursements	1.00%	0.75%	0.75%

<sup>1</sup> Other Operating Expenses are based on estimated amounts for the current fiscal year.

<sup>2</sup> GQG Partners LLC (the “Adviser”) has contractually agreed to waive fees and reimburse expenses to the extent necessary to keep Total Annual Fund Operating Expenses (excluding interest, taxes, brokerage commissions, Shareholder Servicing Fees, acquired fund fees and expenses and non-routine expenses (collectively, “excluded expenses”)) from exceeding 0.75% of the average daily net assets of each of the Fund’s share classes until April 1, 2020 (the “contractual expense limit”). In addition, the Adviser may recoup all or a portion of its fee waivers or expense reimbursements made during the rolling three-year period preceding the date of the recoupment to the extent that Total Annual Fund Operating Expenses (not including excluded expenses) at the time of the recoupment are below the lower of (i) the contractual expense limit in effect at the time of the fee waiver and/or expense reimbursement and (ii) the contractual expense limit in effect at the time of the recoupment. This agreement may be terminated: (i) by the Board of Trustees (the “Board”) of The Advisors’ Inner Circle Fund III (the “Trust”), for any reason at any time; or (ii) by the Adviser, upon ninety (90) days’ prior written notice to the Trust, effective as of the close of business on April 1, 2020.

### *Example*

This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds.

The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund's operating expenses (including capped expenses for the period described in the footnote to the fee table) remain the same. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

	<b>1 Year</b>	<b>3 Years</b>
Investor Shares	\$102	\$415
Institutional Shares	\$77	\$337
R6 Shares	\$77	\$337

### *Portfolio Turnover*

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in total annual Fund operating expenses or in the example, affect the Fund's performance. Because the Fund has not commenced operations as of the date of this prospectus, it does not have portfolio turnover information to report.

### **Principal Investment Strategies**

---

Under normal circumstances, the Fund invests at least 80% of its net assets, plus any borrowings for investment purposes, in equity securities. This investment policy may be changed by the Fund upon 60 days' prior written notice to shareholders.

The equity securities in which the Fund invests are primarily publicly traded common stocks. For purposes of the Fund's 80% investment policy, however, equity securities also include preferred stocks, exchange-traded funds ("ETFs") with economic characteristics similar to equity securities, depositary receipts (including American Depositary Receipts ("ADRs"), European Depositary Receipts ("EDRs") and Global Depositary Receipts ("GDRs")), which are certificates typically issued by a bank or trust company that represent ownership interests in securities of non-U.S. companies, and participation notes ("P-Notes"), which are derivative instruments

designed to replicate equity exposure in certain foreign markets where direct investment is either impossible or difficult due to local investment restrictions. The Fund may invest in initial public offerings (“IPOs”) and securities of companies with any market capitalization. The Fund may also invest in U.S. Treasury securities, and in ETFs that attempt to track the price movements of commodities, including gold.

Under normal circumstances, the Fund invests in at least five countries, which may include the United States, and invests at least 40% of its total assets in securities of non-U.S. companies or, if conditions are not favorable, invests at least 30% of its total assets in securities of non-U.S. companies. The Fund considers a company to be a non-U.S. company if: (i) at least 50% of the company’s assets are located outside of the U.S.; (ii) at least 50% of the company’s revenue is generated outside of the U.S.; (iii) the company is organized, conducts its principal operations, or maintains its principal place of business or principal manufacturing facilities outside of the U.S.; (iv) the company’s securities are traded principally outside of the U.S.; or (v) the Adviser otherwise believes that the company’s assets are exposed to the economic fortunes and risks of a non-U.S. country (because, for example, the Adviser believes that the company’s growth is dependent on the country). The Fund may invest in equity securities of companies in both developed and emerging markets. Emerging market countries generally include every country in the world except the U.S., Canada, Japan, Australia, New Zealand, and most of the countries in Western Europe.

The Fund may also invest in A Shares of companies based in the People’s Republic of China (“China”) that trade on the Shanghai Stock Exchange and the Shenzhen Stock Exchange through the Shanghai – Hong Kong and Shenzhen – Hong Kong Stock Connect programs (“Stock Connect”). Stock Connect is a mutual stock market access program designed to, among other things, enable foreign investments in China. The Fund may focus its investments in a particular country or geographic region, including the United States.

In managing the Fund’s investments, the Adviser typically pursues a “growth style” of investing through which it seeks to capture market upside while limiting downside risk through a full market cycle, which can be measured from a point in the market cycle (e.g., a peak or trough) to the corresponding point in the next market cycle. The Adviser generates investment ideas from a variety of sources, with a meaningful number of ideas coming from a proprietary screening process that seeks to identify companies based on factors such as rates of return on equity and total capital, use of leverage, and return on invested capital. Those ideas are then subject to rigorous fundamental analysis as the Adviser seeks to

identify and invest in companies that it believes reflect higher quality opportunities on a forward looking basis. Specifically, the Adviser seeks to buy companies that it believes are reasonably priced, and have strong fundamental business characteristics, sustainable and durable earnings growth and the ability to outperform peers over a full market cycle and sustain the value of their securities in a market downturn, while the Adviser seeks to avoid investments in companies that it believes have low profit margins or unwarranted leverage.

The Adviser may sell a company if the Adviser believes that the company's long-term competitive advantage or relative earnings growth prospects have deteriorated, or the Adviser has otherwise lost conviction that the company reflects a higher quality opportunity than other available investments on a forward looking basis. The Adviser also may sell a company if the company has met its price target or is involved in a business combination, if the Adviser identifies a more attractive investment opportunity, or the Adviser wishes to reduce the Fund's exposure to the company or a particular country or geographic region.

The Fund is classified as "non-diversified," which means that it may invest a larger percentage of its assets in a smaller number of issuers than a diversified fund.

## **Principal Risks**

---

As with all mutual funds, there is no guarantee that the Fund will achieve its investment objective. You could lose money by investing in the Fund. **A Fund share is not a bank deposit and it is not insured or guaranteed by the FDIC or any government agency.** The principal risk factors affecting shareholders' investments in the Fund are set forth below in alphabetical order.

**Active Management Risk** – The Fund is subject to the risk that the Adviser's judgments about the attractiveness, value, or potential appreciation of the Fund's investments may prove to be incorrect. If the investments selected and strategies employed by the Fund fail to produce the intended results, the Fund could underperform in comparison to other funds with similar objectives and investment strategies.

**Commodities Risk** – The prices of physical commodities (such as energy, metals, minerals, or agricultural products) may be affected by factors such as natural disasters, weather, and U.S. and international economic, political and regulatory developments. The prices of commodities can also fluctuate due to supply and demand disruptions in major producing or consuming regions, as well as temporary distortions in the commodities

markets due to, among other factors, lack of liquidity, the participation of speculators, and government regulation and other actions.

**Depository Receipts Risk** – Investments in depository receipts may be less liquid and more volatile than the underlying securities in their primary trading market. If a depository receipt is denominated in a different currency than its underlying securities, the Fund will be subject to the currency risk of both the investment in the depository receipt and the underlying security. Holders of depository receipts may have limited or no rights to take action with respect to the underlying securities or to compel the issuer of the receipts to take action. The prices of depository receipts may differ from the prices of securities upon which they are based. Certain of the depository receipts in which the Fund invests may be unsponsored depository receipts. Unsponsored depository receipts may not provide as much information about the underlying issuer and may not carry the same voting privileges as sponsored depository receipts. Unsponsored depository receipts are issued by one or more depositories in response to market demand, but without a formal agreement with the company that issues the underlying securities.

**Emerging Markets Securities Risk** – The Fund's investments in emerging markets securities, including A Shares of Chinese companies purchased through Stock Connect, are considered speculative and subject to heightened risks in addition to the general risks of investing in foreign securities. Unlike more established markets, emerging markets may have governments that are less stable, markets that are more concentrated and less liquid and economies that are less developed. In addition, the securities markets of emerging market countries may consist of companies with smaller market capitalizations and may suffer periods of relative illiquidity; significant price volatility; restrictions on foreign investment; and possible restrictions on repatriation of investment income and capital. In certain emerging markets, governments have historically exercised substantial control over the economy through administrative regulation and/or state ownership. Furthermore, foreign investors may be required to register the proceeds of sales, and future economic or political crises could lead to price controls, forced mergers, expropriation or confiscatory taxation, seizure, nationalization or creation of government monopolies.

**Equity Risk** – Since it purchases equity securities, the Fund is subject to the risk that stock prices may fall over short or extended periods of time. Historically, the equity market has moved in cycles, and the value of the Fund's securities may fluctuate from day to day. Individual companies may report poor results or be negatively affected by industry and/or economic trends and developments. The prices of securities issued by

such companies may suffer a decline in response. These factors contribute to price volatility, which is the principal risk of investing in the Fund.

**ETF Risk** – ETFs are pooled investment vehicles, such as registered investment companies and grantor trusts, whose shares are listed and traded on U.S. and non-U.S. stock exchanges or otherwise traded in the over-the-counter market. To the extent that the Fund invests in ETFs, the Fund will be subject to substantially the same risks as those associated with the direct ownership of the securities comprising the index on which an index ETF is based or the other holdings of an ETF, and the value of the Fund's investment will fluctuate in response to the performance of the underlying index or holdings. ETFs typically incur fees that are separate from those of the Fund. Accordingly, the Fund's investments in ETFs will result in the layering of expenses such that shareholders will indirectly bear a proportionate share of the ETFs' operating expenses, in addition to paying Fund expenses.

**Foreign Company Risk** – Investing in foreign companies, including direct investments and investments through depositary receipts and P-Notes, poses additional risks since political and economic events unique to a country or region will affect those markets and their issuers. These risks will not necessarily affect the U.S. economy or similar issuers located in the U.S. Securities of foreign companies may not be registered with the U.S. Securities and Exchange Commission (the "SEC") and foreign companies are generally not subject to the regulatory controls imposed on U.S. issuers and, as a consequence, there is generally less publicly available information about foreign securities than is available about domestic securities. Income from foreign securities owned by the Fund may be reduced by a withholding tax at the source, which tax would reduce income received from the securities comprising the Fund's portfolio. Foreign securities may also be more difficult to value than securities of U.S. issuers. While depositary receipts provide an alternative to directly purchasing the underlying foreign securities in their respective national markets and currencies, investments in depositary receipts continue to be subject to many of the risks associated with investing directly in foreign securities.

**Foreign Currency Risk** – As a result of the Fund's investments in securities denominated in, and/or receiving revenues in, foreign currencies, the Fund will be subject to currency risk. Currency risk is the risk that foreign currencies will decline in value relative to the U.S. dollar, in which case the dollar value of an investment in the Fund would be adversely affected.

**Geographic Focus Risk** – To the extent that it focuses its investments in a particular country or geographic region, the Fund may be more susceptible to economic, political, regulatory or other events or conditions affecting issuers and countries within that country or geographic region. As a result, the Fund may be subject to greater price volatility and risk of loss than a fund holding more geographically diverse investments.

**Investment Style Risk** – The Fund pursues a “growth style” of investing, meaning that the Fund invests in equity securities of companies that the Adviser believes will have above-average rates of relative earnings growth and which, therefore, may experience above-average increases in stock prices. Over time, a relative growth investing style may go in and out of favor, causing the Fund to sometimes underperform other equity funds that use differing investing styles.

**IPO Risk** – The market value of shares issued in an IPO may fluctuate considerably due to factors such as the absence of a prior public market, unseasoned trading, the small number of shares available for trading and limited information about a company’s business model, quality of management, earnings growth potential, and other criteria used to evaluate its investment prospects. Accordingly, investments in IPO shares involve greater risks than investments in shares of companies that have traded publicly on an exchange for extended periods of time. Investments in IPO shares may also involve high transaction costs, and are subject to market risk and liquidity risk, which are described below.

**Large Capitalization Company Risk** – The large capitalization companies in which the Fund may invest may lag the performance of smaller capitalization companies because large capitalization companies may experience slower rates of growth than smaller capitalization companies and may not respond as quickly to market changes and opportunities.

**Large Purchase and Redemption Risk** – Large purchases or redemptions of the Fund’s shares may force the Fund to purchase or sell securities at times when it would not otherwise do so, and may cause the Fund’s portfolio turnover rate and transaction costs to rise, which may negatively affect the Fund’s performance and have adverse tax consequences for Fund shareholders.

**Liquidity Risk** – Certain securities may be difficult or impossible to sell at the time and the price that the Fund would like. The Fund may have to accept a lower price to sell a security, sell other securities to raise cash, or give up an investment opportunity, any of which could have a negative effect on Fund management or performance.

**Market Risk** – The market value of the securities in which the Fund invests may go up or down in response to the prospects of individual companies, particular sectors or governments and/or general economic conditions throughout the world due to increasingly interconnected global economies and financial markets.

**New Fund Risk** – Because the Fund is new, investors in the Fund bear the risk that the Fund may not be successful in implementing its investment strategy, may not employ a successful investment strategy, or may fail to attract sufficient assets under management to realize economies of scale, any of which could result in the Fund being liquidated at any time without shareholder approval and at a time that may not be favorable for all shareholders. Such liquidation could have negative tax consequences for shareholders and will cause shareholders to incur expenses of liquidation.

**Non-Diversification Risk** – The Fund is classified as “non-diversified,” which means it may invest a larger percentage of its assets in a smaller number of issuers than a diversified fund. To the extent that the Fund invests its assets in a smaller number of issuers, the Fund will be more susceptible to negative events affecting those issuers than a diversified fund.

**Participation Notes Risk** – The return on a P-Note is linked to the performance of the issuers of the underlying securities. The performance of P-Notes will not replicate exactly the performance of the issuers that they seek to replicate due to transaction costs and other expenses. P-Notes are subject to counterparty risk since the notes constitute general unsecured contractual obligations of the financial institutions issuing the notes, and the Fund is relying on the creditworthiness of such institutions and has no rights under the notes against the issuers of the underlying securities. In addition, P-Notes are subject to liquidity risk, which is described above.

**Preferred Stock Risk** – Preferred stocks in which the Fund may invest are sensitive to interest rate changes, and are also subject to equity risk, which is the risk that stock prices will fall over short or extended periods of time. The rights of preferred stocks on the distribution of a company’s assets in the event of a liquidation are generally subordinate to the rights associated with a company’s debt securities.

**Small- and Mid-Capitalization Company Risk** – The small- and mid-capitalization companies in which the Fund may invest may be more vulnerable to adverse business or economic events than larger, more established companies. In particular, investments in these small- and mid-sized companies may pose additional risks, including liquidity risk,

because these companies tend to have limited product lines, markets and financial resources, and may depend upon a relatively small management group. Therefore, small- and mid-cap stocks may be more volatile than those of larger companies. These securities may be traded over-the-counter or listed on an exchange.

**Stock Connect Investing Risk** – Trading through Stock Connect is subject to a number of restrictions that may affect the Fund’s investments and returns, including a daily quota that limits the maximum net purchases under Stock Connect each day. In addition, investments made through Stock Connect are subject to relatively untested trading, clearance and settlement procedures. Moreover, A Shares purchased through Stock Connect generally may only be sold or otherwise transferred through Stock Connect. The Fund’s investments in A Shares purchased through Stock Connect are generally subject to Chinese securities regulations and listing rules. While overseas investors currently are exempt from paying capital gains or value added taxes on income and gains from investments in A Shares purchased through Stock Connect, these tax rules could be changed, which could result in unexpected tax liabilities for the Fund. Stock Connect operates only on days when both the China and Hong Kong markets are open for trading and when banks in both markets are open on the corresponding settlement days. Therefore, the Fund may be subject to the risk of price fluctuations of A Shares when Stock Connect is not trading.

**U.S. Treasury Securities Risk** – A security backed by the U.S. Treasury or the full faith and credit of the United States is guaranteed only as to the timely payment of interest and principal when held to maturity, but the market prices for such securities are not guaranteed and will fluctuate.

## **Performance Information**

---

The Fund is new, and therefore has no performance history. Once the Fund has completed a full calendar year of operations, a bar chart and table will be included that will provide some indication of the risks of investing in the Fund by showing the variability of the Fund’s returns and comparing the Fund’s performance to a broad measure of market performance. Of course, the Fund’s past performance (before and after taxes) does not necessarily indicate how the Fund will perform in the future.

Current performance information is available on the Fund’s website at [www.gqgp.com](http://www.gqgp.com) or by calling toll-free to 866-362-8333.

## **Investment Adviser**

---

GQG Partners LLC

## **Portfolio Manager**

---

Rajiv Jain, Chairman and Chief Investment Officer, has managed the Fund since its inception in 2019.

## **Purchase and Sale of Fund Shares**

---

You may generally purchase or redeem shares on any day that the New York Stock Exchange (“NYSE”) is open for business.

The minimum investment amount for Investor Shares of the Fund is generally \$2,500 for initial investments and \$100 for subsequent investments. The minimum initial and subsequent investment amounts for individual retirement accounts (“IRAs”) are generally \$100.

To purchase Institutional Shares of the Fund for the first time, you must invest at least \$500,000. There is no minimum subsequent investment amount for Institutional Shares. The minimum initial investment amount for Institutional Shares of the Fund is waived for clients of financial intermediaries that have accounts holding Institutional Shares with an aggregate value of at least \$500,000 (or that are expected to reach this level).

There is no minimum initial or subsequent investment amount for R6 Shares of the Fund.

The Fund may accept investments of smaller amounts in its sole discretion.

If you own your shares directly, you may redeem your shares by contacting the Fund directly by mail at: GQG Funds, P.O. Box 219009, Kansas City, MO 64121-9009 (Express Mail Address: GQG Funds, c/o DST Systems, Inc., 430 West 7th Street, Kansas City, MO 64105) or telephone at 866-362-8333.

If you own your shares through an account with a broker or other financial intermediary, contact that broker or financial intermediary to redeem your shares. Your broker or financial intermediary may charge a fee for its services in addition to the fees charged by the Fund.

## **Tax Information**

---

The Fund intends to make distributions that may be taxed as ordinary income or capital gains, unless you are investing through a tax-deferred arrangement, such as a 401(k) plan or IRA, in which case your distribution will be taxed when withdrawn from the tax-deferred account.

## **Payments to Broker-Dealers and Other Financial Intermediaries**

---

If you purchase shares of the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's web site for more information.

## **MORE INFORMATION ABOUT THE FUND'S INVESTMENT OBJECTIVE AND STRATEGIES**

---

The investment objective of the Fund is to seek long-term capital appreciation. The investment objective of the Fund is not a fundamental policy and may be changed by the Board without shareholder approval.

The investments and strategies described in this prospectus are those that the Fund uses under normal conditions. During unusual economic or market conditions, or for temporary defensive or liquidity purposes, the Fund may, but is not obligated to, invest up to 100% of its assets in money market instruments and other cash equivalents that would not ordinarily be consistent with its investment objective. If the Fund invests in this manner, it may cause the Fund to forgo greater investment returns for the safety of principal and the Fund may therefore not achieve its investment objective. The Fund will only do so if the Adviser believes that the risk of loss outweighs the opportunity to pursue the Fund's investment objective.

This prospectus describes the Fund's principal investment strategies, and the Fund will normally invest in the types of securities and other investments described in this prospectus. In addition to the securities and other investments and strategies described in this prospectus, the Fund also may invest to a lesser extent in other securities, use other strategies and engage in other investment practices that are not part of its principal investment strategies. These investments and strategies, as well as those described in this prospectus, are described in detail in the Fund's Statement of Additional Information ("SAI") (for information on how to obtain a copy of the SAI see the back cover of this prospectus). Of course, there is no guarantee that the Fund will achieve its investment goals.

## MORE INFORMATION ABOUT RISK

---

Investing in the Fund involves risk and there is no guarantee that the Fund will achieve its goals. The Adviser's judgments about the markets, the economy, or companies may not anticipate actual market movements, economic conditions or company performance, and these judgments may affect the return on your investment. In fact, no matter how good of a job the Adviser does, you could lose money on your investment in the Fund, just as you could with similar investments.

The value of your investment in the Fund is based on the value of the securities the Fund holds. These prices change daily due to economic and other events that affect particular companies and other issuers. These price movements, sometimes called volatility, may be greater or lesser depending on the types of securities the Fund owns and the markets in which they trade. The effect on the Fund of a change in the value of a single security will depend on how widely the Fund diversifies its holdings. The Fund is non-diversified, meaning that it may invest a large percentage of its assets in a single issuer or a relatively small number of issuers.

The following provides general information on the risks associated with the Fund's principal investment strategies. Any additional risks associated with the Fund's non-principal investment strategies are described in the SAI. The SAI also provides additional information about the risks associated with the Fund's principal investment strategies.

**Active Management Risk** – The Fund is subject to the risk that the Adviser's judgments about the attractiveness, value, or potential appreciation of the Fund's investments may prove to be incorrect. If the investments selected and strategies employed by the Fund fail to produce the intended results, the Fund could underperform in comparison to other funds with similar objectives and investment strategies.

**Commodities Risk** – Investments in physical commodities (such as energy, metals, minerals, or agricultural products) may be subject to greater volatility than investments in traditional securities. Commodity prices may be affected by overall market movements, changes in interest rates, or factors affecting particular industries or commodities, such as drought, floods, weather, livestock disease, storage costs, embargoes, tariffs, policies of commodity cartels, and U.S. and international economic, political and regulatory developments. The prices of commodities can also fluctuate due to supply and demand disruptions in major producing or consuming regions, as well as temporary distortions in the commodities markets due to, among other factors, lack of liquidity,

the participation of speculators, and government regulation and other actions.

**Gold** – The price of gold is affected by such factors as: (1) how much of the worldwide supply is held by large holders, such as governmental bodies and central banks; (2) unpredictable monetary policies and economic and political conditions in countries throughout the world; (3) supply and demand for gold bullion as an investment, including bars, coins or gold-backed financial instruments such as ETFs; (4) demand for gold jewelry; and (5) government policies meant to influence demand for gold.

**Depository Receipts Risk** – ADRs are typically trust receipts issued by a U.S. bank or trust company that evidence an indirect interest in underlying securities issued by a foreign entity. GDRs, EDRs, and other types of depository receipts are typically issued by non-U.S. banks or financial institutions to evidence an interest in underlying securities issued by either a U.S. or a non-U.S. entity. Investments in non-U.S. issuers through ADRs, GDRs, EDRs, and other types of depository receipts generally involve risks applicable to other types of investments in non-U.S. issuers. Investments in depository receipts may be less liquid and more volatile than the underlying securities in their primary trading market. If a depository receipt is denominated in a different currency than its underlying securities, the Fund will be subject to the currency risk of both the investment in the depository receipt and the underlying security. The values of depository receipts may decline for a number of reasons relating to the issuers or sponsors of the depository receipts, including, but not limited to, insolvency of the issuer or sponsor. Holders of depository receipts may have limited or no rights to take action with respect to the underlying securities or to compel the issuer of the receipts to take action. The prices of depository receipts may differ from the prices of securities upon which they are based.

The Fund may invest in unsponsored depository receipts, which are issued by one or more depositaries without a formal agreement with the company that issues the underlying securities. Holders of unsponsored depository receipts generally bear all the costs thereof, and the depositaries of unsponsored depository receipts frequently are under no obligation to distribute shareholder communications received from the issuers of the underlying securities or to pass through voting rights with respect to the underlying securities. In addition, the issuers of the securities underlying unsponsored depository receipts are not obligated to disclose material information to the market and, therefore, there may be less information available regarding such issuers and there may not be a correlation between such information and the market value of the depository receipts.

**Equity Risk** – Equity securities include common and preferred stocks, depositary receipts, and P-Notes. Common stock represents an equity or ownership interest in an issuer. Preferred stock provides a fixed dividend that is paid before any dividends are paid to common stockholders, and which takes precedence over common stock in the event of a liquidation. Like common stock, preferred stocks represent partial ownership in a company, although preferred stock shareholders do not enjoy the voting rights of common stockholders. Also, unlike common stock, a preferred stock pays a fixed dividend that does not fluctuate, although the company does not have to pay this dividend if it lacks the financial ability to do so. Depositary receipts are described above and P-Notes are described below. Investments in equity securities in general are subject to market risks that may cause their prices to fluctuate over time. Fluctuations in the value of equity securities in which a mutual fund invests will cause the fund's net asset value ("NAV") to fluctuate. An investment in a portfolio of equity securities may be more suitable for long-term investors who can bear the risk of these share price fluctuations.

**ETFs Risk** – ETFs are pooled investment vehicles, such as registered investment companies and grantor trusts, whose shares are listed and traded on U.S. and non-U.S. stock exchanges or otherwise traded in the over-the-counter market. To the extent that the Fund invests in ETFs, the Fund will be subject to substantially the same risks as those associated with the direct ownership of the securities comprising the index on which an index ETF is based or the other holdings of an ETF, and the value of the Fund's investment will fluctuate in response to the performance of the underlying index or holdings. ETFs typically incur fees that are separate from those of the Fund. Accordingly, the Fund's investments in ETFs will result in the layering of expenses such that shareholders will indirectly bear a proportionate share of the ETFs' operating expenses, in addition to paying Fund expenses. Because the value of ETF shares depends on the demand in the market, shares may trade at a discount or premium to their NAV and the Adviser may not be able to liquidate the Fund's holdings at the most optimal time, which could adversely affect the Fund's performance.

**Foreign Currency Risk** – Because non-U.S. securities are usually denominated in currencies other than the dollar, the value of the Fund's portfolio may be influenced by currency exchange rates and exchange control regulations. The currencies of emerging market countries may experience significant declines against the U.S. dollar, and devaluation may occur subsequent to investments in these currencies by the Fund. Inflation and rapid fluctuations in inflation rates have had, and may

continue to have, negative effects on the economies and securities markets of certain emerging market countries.

**Foreign Securities/Emerging Markets Risk** – Investments in securities of foreign companies (including direct investments as well as investments through depositary receipts or P-Notes) can be more volatile than investments in U.S. companies. Diplomatic, political, or economic developments, including nationalization or appropriation, could affect investments in foreign companies. Foreign securities markets generally have less trading volume and less liquidity than U.S. markets. In addition, the value of securities denominated in foreign currencies, and of dividends from such securities, can change significantly when foreign currencies strengthen or weaken relative to the U.S. dollar. Financial statements of foreign issuers are governed by different accounting, auditing, and financial reporting standards than the financial statements of U.S. issuers and may be less transparent and uniform than in the United States. Thus, there may be less information publicly available about foreign issuers than about most U.S. issuers. Transaction costs are generally higher than those in the United States and expenses for custodial arrangements of foreign securities may be somewhat greater than typical expenses for custodial arrangements of similar U.S. securities. Some foreign governments levy withholding taxes against dividend and interest income. Although in some countries a portion of these taxes are recoverable, the non-recovered portion will reduce the income received from the securities comprising the Fund's portfolio. These risks may be heightened with respect to emerging market countries since political turmoil and rapid changes in economic conditions are more likely to occur in these countries.

**Geographic Focus Risk** – To the extent that it focuses its investments in a particular country or geographic region, the Fund may be more susceptible to economic, political, regulatory or other events or conditions affecting issuers and countries within that country or geographic region. As a result, the Fund may be subject to greater price volatility and risk of loss than a fund holding more geographically diverse investments.

**United States** – A decrease in imports or exports, changes in trade regulations and/or an economic recession in the U.S. may have a material adverse effect on the U.S. economy and the securities listed on U.S. exchanges. Proposed and adopted policy and legislative changes in the U.S. are changing many aspects of financial and other regulation and may have a significant effect on the U.S. markets generally, as well as on the value of certain securities. In addition, a continued rise in the U.S. public debt level or U.S. austerity measures may adversely affect U.S. economic growth and the securities in which the Fund invests.

The U.S. has developed increasingly strained relations with a number of foreign countries, including traditional allies, such as major European Union countries, the U.K., Canada and Mexico, and historical adversaries, such as North Korea, Iran, China and Russia. If these relations were to worsen, it could adversely affect U.S. issuers as well as non-U.S. issuers that rely on the U.S. for trade. The U.S. has also experienced increased internal unrest and discord. If this trend were to continue, it may have an adverse impact on the U.S. economy and the issuers in which the Fund invests.

**Investment Style Risk** – The Fund pursues a “growth style” of investing, meaning that the Fund invests in equity securities of companies that the Adviser believes will have above-average rates of relative earnings growth and which, therefore, may experience above-average increases in stock prices. Over time, a relative growth investing style may go in and out of favor, causing the Fund to sometimes underperform other equity funds that use differing investing styles.

**IPO Risk** – The Fund may invest in IPOs. An IPO is a company’s first offering of stock to the public. IPO risk is the risk that the market value of IPO shares will fluctuate considerably due to factors such as the absence of a prior public market, unseasoned trading, the small number of shares available for trading and limited information about a company’s business model, quality of management, earnings growth potential and other criteria used to evaluate its investment prospects. Accordingly, investments in IPO shares involve greater risks than investments in shares of companies that have traded publicly on an exchange for extended periods of time. Investments in IPO shares may also involve high transaction costs, and are subject to market risk and liquidity risk, which are described below.

When the Fund’s asset base is small, a significant portion of the Fund’s performance could be attributable to investments in IPOs, because such investments would have a magnified impact on the Fund. As the Fund’s assets grow, the effect of the Fund’s investments in IPOs on the Fund’s performance probably will decline, which could reduce the Fund’s performance. Because of the price volatility of IPO shares, the Fund may choose to hold IPO shares for a very short period of time. This may increase the turnover of the Fund’s portfolio and may lead to increased expenses to the Fund, such as commissions and transaction costs. By selling IPO shares, the Fund may realize taxable gains it will subsequently distribute to shareholders. In addition, the market for IPO shares can be speculative and/or inactive for extended periods of time. There is no assurance that the Fund will be able to obtain allocable portions of IPO shares. The limited number of shares available for trading in some IPOs

may make it more difficult for the Fund to buy or sell significant amounts of shares without an unfavorable impact on prevailing prices. Investors in IPO shares can be affected by substantial dilution in the value of their shares, by sales of additional shares and by concentration of control in existing management and principal shareholders.

**Large Capitalization Company Risk** – The large capitalization companies in which the Fund may invest may lag the performance of smaller capitalization companies because large capitalization companies may experience slower rates of growth than smaller capitalization companies and may not respond as quickly to market changes and opportunities.

**Large Purchase and Redemption Risk** – Large purchases or redemptions of the Fund’s shares may affect the Fund, since the Fund may be required to sell portfolio securities if it experiences redemptions, and the Fund will need to invest additional cash that it receives. While it is impossible to predict the overall impact of these transactions over time, there could be adverse effects on portfolio management to the extent that the Fund may be required to sell securities or invest cash at times when it would not otherwise do so. These transactions could also have tax consequences if sales of securities result in gains, and could also increase transaction costs or portfolio turnover. In addition, a large redemption could result in the Fund’s expenses being allocated over a smaller asset base, leading to an increase in the Fund’s expense ratio.

**Liquidity Risk** – Certain securities may be difficult or impossible to sell at the time and the price that the Fund would like. The Fund may have to accept a lower price to sell a security, sell other securities to raise cash, or give up an investment opportunity, any of which could have a negative effect on Fund management or performance.

**Market Risk** – The value of the securities in which the Fund invests may go up or down in response to the prospects of individual companies, particular sectors or governments and/or general economic conditions throughout the world. Price changes may be temporary or last for extended periods. Global economies and financial markets are becoming increasingly interconnected, and conditions and events in one country, region or financial market may adversely impact issuers in a different country, region or financial market. In addition, governmental and quasi-governmental organizations have taken a number of unprecedented actions designed to support the markets. Such conditions, events and actions may result in greater market risk.

**New Fund Risk** – Because the Fund is new, investors in the Fund bear the risk that the Fund may not be successful in implementing its investment

strategy, may not employ a successful investment strategy, or may fail to attract sufficient assets under management to realize economies of scale, any of which could result in the Fund being liquidated at any time without shareholder approval and at a time that may not be favorable for all shareholders. Such liquidation could have negative tax consequences for shareholders and will cause shareholders to incur expenses of liquidation.

**Non-Diversification Risk** – The Fund is classified as “non-diversified,” which means it may invest a larger percentage of its assets in a smaller number of issuers than a diversified fund. To the extent that the Fund invests its assets in a smaller number of issuers, the Fund will be more susceptible to negative events affecting those issuers than a diversified fund.

**Participation Notes Risk** – P-Notes are derivatives that are generally traded over-the-counter and constitute general unsecured contractual obligations of the banks and broker-dealers that issue them. Generally, these banks and broker-dealers buy securities listed on certain foreign exchanges and then issue P-Notes which are designed to replicate the performance of certain issuers and markets. The performance results of P-Notes will not correlate exactly to the performance of the issuers or markets that they seek to replicate due to transaction costs and other expenses. The holder of a P-Note typically does not receive voting or other rights as it would if it directly owned the underlying security, but is subject to the same risks of investing directly in the underlying security.

**Small- and Mid-Capitalization Company Risk** – The small- and mid-capitalization companies in which the Fund may invest may be more vulnerable to adverse business or economic events than larger, more established companies. In particular, investments in these small- and mid-sized companies may pose additional risks, including liquidity risk, because these companies tend to have limited product lines, markets and financial resources, and may depend upon a relatively small management group. Therefore, small- and mid-cap stocks may be more volatile than those of larger companies. These securities may be traded over-the-counter or listed on an exchange.

**Stock Connect Investing Risk** – Trading through Stock Connect is subject to a number of restrictions that may affect the Fund’s investments and returns, including a daily quota that limits the maximum net purchases under Stock Connect each day. In addition, investments made through Stock Connect are subject to relatively untested trading, clearance and settlement procedures. Moreover, A Shares purchased through Stock Connect generally may only be sold or otherwise transferred through Stock Connect.

The Fund's investments in A Shares purchased through Stock Connect are generally subject to Chinese securities regulations and listing rules. While overseas investors currently are exempt from paying capital gains or value added taxes on income and gains from investments in A Shares purchased through Stock Connect, these tax rules could be changed, which could result in unexpected tax liabilities for the Fund. Stock Connect operates only on days when both the China and Hong Kong markets are open for trading and when banks in both markets are open on the corresponding settlement days. Therefore, the Fund may be subject to the risk of price fluctuations of A Shares during the time when Stock Connect is not trading. Because of the way in which A shares are held in Stock Connect, the Fund may not be able to exercise the rights of a shareholder and may be limited in its ability to pursue claims against the issuer of a security, and may suffer losses in the event the depository of the Shanghai Stock Exchange or Shenzhen Stock Exchange becomes insolvent. Stock Connect is a relatively new program. Further developments are likely and there can be no assurance as to the program's continued existence or whether future developments regarding the program may restrict or adversely affect the Fund's investments or returns. In addition, the application and interpretation of the laws and regulations of Hong Kong and China, and the rules, policies or guidelines published or applied by relevant regulators and exchanges in respect of Stock Connect are uncertain, and they may have a detrimental effect on the Fund's investments and returns.

**U.S. Treasury Securities Risk** – A security backed by the U.S. Treasury or the full faith and credit of the United States is guaranteed only as to the timely payment of interest and principal when held to maturity, but the market prices for such securities are not guaranteed and will fluctuate.

## **INFORMATION ABOUT PORTFOLIO HOLDINGS**

---

A description of the Fund's policies and procedures with respect to the circumstances under which the Fund discloses its portfolio holdings is available in the SAI.

## **INVESTMENT ADVISER**

---

GQG Partners LLC, a Delaware limited liability company founded in 2016, is an SEC registered investment adviser that serves as the investment adviser to the Fund. The Adviser's principal place of business is located at 450 East Las Olas Boulevard, Suite 750, Fort Lauderdale, Florida 33301. The Adviser provides investment management services for institutions, mutual funds and other investors using emerging markets, global, international and US equity investment strategies.

The Adviser makes investment decisions for the Fund and continuously reviews, supervises and administers the Fund's investment program. The Board supervises the Adviser and establishes policies that the Adviser must follow in its management activities.

For its services to the Fund, the Adviser is entitled to a fee, which is calculated daily and paid monthly, at an annual rate of 0.65% of the average daily net assets of the Fund.

The Adviser has contractually agreed to waive fees and/or reimburse expenses to the extent necessary to keep total annual Fund operating expenses (excluding interest, taxes, brokerage commissions, shareholder servicing fees, acquired fund fees and expenses and non-routine expenses (collectively, "excluded expenses")) from exceeding 0.75% of the average daily net assets of each of the Fund's share classes until April 1, 2020 (the "contractual expense limit"). This agreement may be terminated: (i) by the Board, for any reason at any time; or (ii) by the Adviser, upon ninety (90) days' prior written notice to the Trust, effective as of the close of business on April 1, 2020. In addition, the Adviser may recoup all or a portion of its fee waivers or expense reimbursements made during the rolling three-year period preceding the date of the recoupment to the extent that total annual Fund operating expenses (not including excluded expenses) at the time of the recoupment are below the lower of (i) the contractual expense limit in effect at the time of the fee waiver and/or expense reimbursement and (ii) the contractual expense limit in effect at the time of the recoupment.

A discussion regarding the basis for the Board's approval of the Fund's investment advisory agreement will be available in the Fund's first Annual Report to Shareholders dated July 31, 2019, which will cover the period from the Fund's inception to July 31, 2019.

## **PORTFOLIO MANAGER**

---

Rajiv Jain, Chairman and Chief Investment Officer of the Adviser, serves as the sole Portfolio Manager of the Fund. Prior to joining the Adviser in 2016, Mr. Jain served as a Co-Chief Executive Officer, Chief Investment Officer and Head of Equities at Vontobel Asset Management ("Vontobel"). He joined Vontobel in 1994 as an equity analyst and associate manager of its international equity portfolios. Mr. Jain earned an MBA in Finance and International Business from the University of Miami in 1993. He also has a Master's degree from the University of Ajmer and an undergraduate degree in Accounting.

The SAI provides additional information about the portfolio manager's compensation, other accounts managed, and ownership of Fund shares.

## RELATED PERFORMANCE DATA

---

The following tables give the related performance of all separate accounts managed by the Adviser that have investment objectives, policies and strategies substantially similar to those of the Fund (the "GQG Comparable Accounts") and a personal account managed by Rajiv Jain while employed by a firm unaffiliated with the Adviser that had investment objectives, policies and strategies substantially similar to those of the Fund (the "Prior Comparable Account," and, together with the GQG Comparable Accounts, the "Accounts"). **The data does not represent the performance of the Fund.** Performance is historical and does not represent the future performance of the Fund or of the Adviser.

Mr. Jain is primarily responsible for the day-to-day management of the Fund and the GQG Comparable Accounts, and was primarily responsible for the day-to-day management of the Prior Comparable Account. Mr. Jain exercises final decision-making authority over all material aspects concerning the investment objective, policies, strategies, and security selection decisions of the Fund and the GQG Comparable Accounts, and exercised the same level of authority and discretion in managing the Prior Comparable Account.

The manner in which the performance was calculated for the Accounts differs from that of registered mutual funds such as the Fund. If the performance was calculated in accordance with SEC standardized performance methodology, the performance results may have been different. The Adviser has calculated the performance consistent with Global Investment Performance Standards ("GIPS®").

The returns presented were calculated on a total return basis and include all dividends and interest, accrued income, and realized and unrealized gains and losses. Investment transactions are accounted for on a trade date basis. "Net of fees" returns reflect the deduction of foreign withholding taxes and all fees and expenses, including investment management fees, brokerage commissions, execution costs, sales loads and account fees, if any, paid by the Accounts, without taking into account federal or state income taxes, while "gross of fees" returns do not reflect the deduction of investment management fees. "Net of fees" returns are calculated using an investment management fee of 0.70%, which is the highest stated investment management fee for the strategy and is higher than the investment management fee of the Fund.

The performance information is calculated in and expressed in United States dollars.

Because of variation in fee levels, the returns presented for the GQG Comparable Accounts may not be reflective of performance in any one particular Account. Therefore, the performance information shown below for the GQG Comparable Accounts is not necessarily representative of the performance information that typically would be shown for a registered mutual fund.

The Fund's total fees and expenses are generally expected to be higher than those of the Accounts. If the Fund's fees and expenses had been imposed on the Accounts, the performance shown below would have been lower. The Accounts are also not subject to the diversification requirements, specific tax restrictions, and investment limitations imposed on the Fund by the federal securities and tax laws. Consequently, the performance results for the Accounts could have been adversely affected if the Accounts were subject to the same federal securities and tax laws as the Fund.

The investment results for the Accounts presented below are not intended to predict or suggest the future returns of the Fund. **The performance data shown below should not be considered a substitute for the Fund's own performance information.** Investors should be aware that the use of a methodology different than that used below to calculate performance could result in different performance data.

## **THE FOLLOWING DATA DOES NOT REPRESENT THE PERFORMANCE OF THE FUND.**

<sup>3</sup> Represents the period from October 1, 2014 to December 31, 2014.

<sup>4</sup> The inception date is October 1, 2014, the beginning of the first full month in which Mr. Jain managed the Prior Comparable Account.

## PURCHASING, SELLING AND EXCHANGING FUND SHARES

This section tells you how to purchase, sell (sometimes called “redeem”) and exchange Investor Shares, Institutional Shares and R6 Shares of the Fund.

For information regarding the federal income tax consequences of transactions in shares of the Fund, including information about cost basis reporting, see “Taxes.”

## How to Choose a Share Class

The Fund offers three classes of shares to investors, Investor Shares, Institutional Shares and R6 Shares. Each share class has its own shareholder eligibility criteria, investment minimums, cost structure and other features. The following summarizes the primary features of Investor Shares, Institutional Shares and R6 Shares. Contact your financial intermediary or the Fund for more information about the Fund's share classes and how to choose between them.

Class Name	Eligible Investors	Investment Minimums	Fees
Investor Shares	Primarily individual investors	Initial - \$2,500 (\$100 for IRAs) Subsequent - \$100	0.25% Shareholder Servicing Fee
Institutional Shares	Primarily institutional investors	Initial - \$500,000 Subsequent - None  The minimum initial investment amount for Institutional Shares of the Fund is waived for clients of financial intermediaries that have accounts holding Institutional Shares with an aggregate value of at least \$500,000 (or that are expected to reach this level).	No Shareholder Servicing Fee
R6 Shares	Section 401(k), 403(b), 457, profit-sharing, money purchase pension, defined benefit pension, non-qualified deferred compensation plans or other employee benefit plans that are sponsored by one or more employers or employee organizations ("Employee Benefit Plans"). Such an Employee Benefit Plan must purchase R6 Shares through a plan level or omnibus account.	Initial - None Subsequent - None	No Shareholder Servicing Fee

Investor Shares, Institutional Shares and R6 Shares are offered to investors who purchase shares directly from the Fund or through certain financial intermediaries such as financial planners, investment advisors, broker-dealers or other financial institutions. An investor may be eligible to purchase more than one share class. However, if you purchase shares through a financial intermediary, you may only purchase that class of shares which your financial intermediary sells or services on the platform or program of the intermediary through which you own shares. Your financial intermediary can tell you which class of shares is available through your platform or program.

The Fund reserves the right to change the criteria for eligible investors and accept investments of smaller amounts in its sole discretion.

## **How to Purchase Fund Shares**

To purchase shares directly from the Fund through its transfer agent, complete and send in the application. If you need an application or have questions, please call 866-362-8333.

All investments must be made by check, wire or Automated Clearing House ("ACH"). All checks must be made payable in U.S. dollars and drawn on U.S. financial institutions. The Fund does not accept purchases made by third-party checks, credit cards, credit card checks, cash, traveler's checks, money orders or cashier's checks.

The Fund reserves the right to reject any specific purchase order, including exchange purchases, for any reason. The Fund is not intended for short-term trading by shareholders in response to short-term market fluctuations. For more information about the Fund's policy on short-term trading, see "Excessive Trading Policies and Procedures."

The Fund does not generally accept investments by non-U.S. persons. Non-U.S. persons may be permitted to invest in the Fund subject to the satisfaction of enhanced due diligence. Please contact the Fund for more information.

### ***By Mail***

You can open an account with the Fund by sending a check and your account application to the address below. You can add to an existing account by sending the Fund a check and, if possible, the "Invest by Mail" stub that accompanies your confirmation statement. Be sure your check identifies clearly your name, your account number, the Fund name and the share class.

#### **Regular Mail Address**

GQG Funds  
P.O. Box 219009  
Kansas City, MO 64121-9009

#### **Express Mail Address**

GQG Funds  
c/o DST Systems, Inc.  
430 West 7th Street  
Kansas City, MO 64105

The Fund does not consider the U.S. Postal Service or other independent delivery services to be its agents. Therefore, deposit in the mail or with such services of purchase orders does not constitute receipt by the Fund's transfer agent. The share price used to fill the purchase order is the next price calculated by the Fund after the Fund's transfer agent receives the order in proper form at the P.O. Box provided for regular mail delivery or the office address provided for express mail delivery.

### ***By Wire***

To open an account by wire, call 866-362-8333 for details. To add to an existing account by wire, wire your money using the wiring instructions set forth below (be sure to include the Fund name, the share class, and your account number).

#### **Wiring Instructions**

UMB Bank, N.A.

ABA # 101000695

GQG Funds

DDA # 9872013085

Ref: Fund name/share class/account number/account name

### ***Purchases In-Kind***

Subject to the approval of the Fund, an investor may purchase shares of the Fund with liquid securities and other assets that are eligible for purchase by the Fund (consistent with the Fund's investment policies and restrictions) and that have a value that is readily ascertainable in accordance with the Fund's valuation policies. These transactions will be effected only if the Adviser deems the security to be an appropriate investment for the Fund. Assets purchased by the Fund in such transactions will be valued in accordance with procedures adopted by the Fund. The Fund reserves the right to amend or terminate this practice at any time.

### ***Minimum Purchases***

The minimum investment amount for Investor Shares of the Fund is generally \$2,500 for initial investments and \$100 for subsequent investments. The minimum initial and subsequent investment amounts for IRAs are generally \$100.

To purchase Institutional Shares of the Fund for the first time, you must invest at least \$500,000. There is no minimum subsequent investment amount for Institutional Shares. The minimum initial investment amount for Institutional Shares of the Fund is waived for clients of financial

intermediaries that have accounts holding Institutional Shares with an aggregate value of at least \$500,000 (or that are expected to reach this level).

There is no minimum initial or subsequent investment amount for R6 Shares of the Fund.

The Fund may accept investments of smaller amounts in its sole discretion.

### *Fund Codes*

The Fund's reference information, which is listed below, will be helpful to you when you contact the Fund to purchase or exchange shares, check daily NAV, or obtain additional information.

<b>Fund Name</b>	<b>Share Class</b>	<b>Ticker Symbol</b>	<b>CUSIP</b>	<b>Fund Code</b>
GQG Partners Global	Investor Shares	GQRPX	00774Q 718	1336
Quality Equity Fund	Institutional Shares	GQRIX	00774Q 692	1337
	R6 Shares	GQRRX	00774Q 684	1338

### *General Information*

You may purchase shares on any day that the NYSE is open for business (a "Business Day"). Shares cannot be purchased by Federal Reserve wire on days that either the NYSE or the Federal Reserve is closed.

The Fund's price per share will be the NAV per share next determined after the Fund or an authorized institution (defined below) receives your purchase order in proper form. "Proper form" means that the Fund was provided with a complete and signed account application, including the investor's social security number or tax identification number, and other identification required by law or regulation, as well as sufficient purchase proceeds.

The Fund calculates its NAV once each Business Day as of the close of normal trading on the NYSE (normally, 4:00 p.m., Eastern Time). To receive the current Business Day's NAV, the Fund or an authorized institution must receive your purchase order in proper form before the close of normal trading on the NYSE. If the NYSE closes early, as in the case of scheduled half-day trading or unscheduled suspensions of trading, the Fund reserves the right to calculate NAV as of the earlier closing time. The Fund will not accept orders that request a particular day or price for the transaction or any other special conditions. Shares will only be priced on Business Days. Since securities that are traded on foreign exchanges may trade on days that are not Business Days, the value of the Fund's assets may change on days when you are unable to purchase or redeem shares.

### *Buying or Selling Shares through a Financial Intermediary*

In addition to being able to buy and sell Fund shares directly from the Fund through its transfer agent, you may also buy or sell shares of the Fund through accounts with financial intermediaries, such as brokers and other institutions that are authorized to place trades in Fund shares for their customers. When you purchase or sell Fund shares through a financial intermediary (rather than directly from the Fund), you may have to transmit your purchase and sale requests to the financial intermediary at an earlier time for your transaction to become effective that day. This allows the financial intermediary time to process your requests and transmit them to the Fund prior to the time the Fund calculates its NAV that day. Your financial intermediary is responsible for transmitting all purchase and redemption requests, investment information, documentation and money to the Fund on time. If your financial intermediary fails to do so, it may be responsible for any resulting fees or losses. Unless your financial intermediary is an authorized institution, orders transmitted by the financial intermediary and received by the Fund after the time NAV is calculated for a particular day will receive the following day's NAV.

Certain financial intermediaries, including certain broker-dealers and shareholder organizations, are authorized to act as agent on behalf of the Fund with respect to the receipt of purchase and redemption orders for Fund shares ("authorized institutions"). Authorized institutions are also authorized to designate other intermediaries to receive purchase and redemption orders on the Fund's behalf. The Fund will be deemed to have received a purchase or redemption order when an authorized institution or, if applicable, an authorized institution's designee, receives the order. Orders will be priced at the Fund's NAV next computed after they are received by an authorized institution or an authorized institution's designee. To determine whether your financial intermediary is an authorized institution or an authorized institution's designee such that it may act as agent on behalf of the Fund with respect to purchase and redemption orders for Fund shares, you should contact your financial intermediary directly.

If you deal directly with a financial intermediary, you will have to follow its procedures for transacting with the Fund. Your financial intermediary may charge a fee for your purchase and/or redemption transactions. For more information about how to purchase or sell Fund shares through a financial intermediary, you should contact your financial intermediary directly.

### *How the Fund Calculates NAV*

The NAV of a class of the Fund's shares is determined by dividing the total value of the Fund's portfolio investments and other assets attributable to the class, less any liabilities attributable to the class, by the total number of shares outstanding of the class.

In calculating NAV, the Fund generally values its investment portfolio at market price. If market prices are not readily available or the Fund reasonably believes that they are unreliable, such as in the case of a security value that has been materially affected by events occurring after the relevant market closes, the Fund is required to price those securities at fair value as determined in good faith using methods approved by the Board. Pursuant to the policies adopted by, and under the ultimate supervision of, the Board, these methods are implemented through the Trust's Fair Value Pricing Committee, members of which are appointed by the Board. The Fund's determination of a security's fair value price often involves the consideration of a number of subjective factors, and is therefore subject to the unavoidable risk that the value that the Fund assigns to a security may be higher or lower than the security's value would be if a reliable market quotation for the security was readily available.

With respect to non-U.S. securities held by the Fund, the Fund may take factors influencing specific markets or issuers into consideration in determining the fair value of a non-U.S. security. Foreign securities markets may be open on days when the U.S. markets are closed. In such cases, the value of any foreign securities owned by the Fund may be significantly affected on days when investors cannot buy or sell shares. In addition, due to the difference in times between the close of the foreign markets and the time as of which the Fund prices its shares, the value the Fund assigns to securities may not be the same as the quoted or published prices of those securities on their primary markets or exchanges. In determining fair value prices, the Fund may consider the performance of securities on their primary exchanges, foreign currency appreciation/depreciation, securities market movements in the United States, or other relevant information related to the securities.

Other assets for which market quotations are not readily available will be valued at their fair value as determined in good faith by or under the direction of the Board.

### **How to Sell Your Fund Shares**

If you own your shares directly, you may sell your shares on any Business Day by contacting the Fund directly by mail or telephone at 866-362-8333.

If you own your shares through an account with a broker or other institution, contact that broker or institution to sell your shares. Your broker or institution may charge a fee for its services in addition to the fees charged by the Fund.

If you would like to have your redemption proceeds, including proceeds generated as a result of closing your account, sent to a third party or an address other than your own, please notify the Fund in writing.

Certain redemption requests will require a signature guarantee by an eligible guarantor institution. Eligible guarantors include commercial banks, savings and loans, savings banks, trust companies, credit unions, member firms of a national stock exchange, or any other member or participant of an approved signature guarantor program. For example, signature guarantees may be required if your address of record has changed in the last 30 days, if you want the proceeds sent to a bank other than the bank of record on your account, or if you ask that the proceeds be sent to a different person or address. Please note that a notary public is not an acceptable provider of a signature guarantee and that the Fund must be provided with the original guarantee. Signature guarantees are for the protection of Fund shareholders. Before granting a redemption request, the Fund may require a shareholder to furnish additional legal documents to ensure proper authorization.

Accounts held by a corporation, trust, fiduciary or partnership, may require additional documentation along with a signature guaranteed letter of instruction. The Fund participates in the Paperless Legal Program (the "Program"), which eliminates the need for accompanying paper documentation on legal securities transfers. Requests received with a Medallion Signature Guarantee will be reviewed for the proper criteria to meet the guidelines of the Program and may not require additional documentation. Please contact Shareholder Services at 866-362-8333 for more information.

The sale price of each share will be the NAV next determined after the Fund (or an authorized institution) receives your request in proper form.

### ***By Mail***

To redeem shares by mail, please send a letter to the Fund signed by all registered parties on the account specifying:

- The Fund name;
- The share class;
- The account number;

- The dollar amount or number of shares you wish to redeem;
- The account name(s); and
- The address to which redemption (sale) proceeds should be sent.

All registered shareholders must sign the letter in the exact name(s) and must designate any special capacity in which they are registered.

### **Regular Mail Address**

GQG Funds  
P.O. Box 219009  
Kansas City, MO 64121-9009

### **Express Mail Address**

GQG Funds  
c/o DST Systems, Inc.  
430 West 7th Street  
Kansas City, MO 64105

The Fund does not consider the U.S. Postal Service or other independent delivery services to be its agents. Therefore, deposit in the mail or with such services of sell orders does not constitute receipt by the Fund's transfer agent. The share price used to fill the sell order is the next price calculated by the Fund after the Fund's transfer agent receives the order in proper form at the P.O. Box provided for regular mail delivery or the office address provided for express mail delivery.

### ***By Telephone***

To redeem shares by telephone, you must first establish the telephone redemption privilege (and, if desired, the wire and/or ACH redemption privilege) by completing the appropriate sections of the account application. Call 866-362-8333 to redeem your shares. Based on your instructions, the Fund will mail your proceeds to you, or send them to your bank via wire or ACH.

### ***Receiving Your Money***

Normally, the Fund will send your sale proceeds within one Business Day after it receives your redemption request. The Fund, however, may take up to seven days to pay redemption proceeds. Your proceeds can be wired to your bank account (may be subject to a \$10 fee), sent to you by check or sent via ACH to your bank account if you have established banking instructions with the Fund. **If you are selling shares that were recently purchased by check or through ACH, redemption**

**proceeds may not be available until your check has cleared or the ACH transaction has been completed (which may take up to 15 days from your date of purchase).**

The Fund typically expects to sell portfolio assets and/or hold cash or cash equivalents to meet redemption requests. On a less regular basis, the Fund may also meet redemption requests by using short-term borrowings from its custodian and/or redeeming shares in-kind (as described below). These methods may be used during both normal and stressed market conditions.

### *Redemptions In-Kind*

The Fund generally pays sale (redemption) proceeds in cash. However, under unusual conditions that make the payment of cash unwise and for the protection of the Fund's remaining shareholders, the Fund might pay all or part of your redemption proceeds in securities with a market value equal to the redemption price (redemption in-kind). It is highly unlikely that your shares would ever be redeemed in-kind, but if they were, you would have to pay transaction costs to sell the securities distributed to you, as well as taxes on any capital gains from the sale as with any redemption. In addition, you would continue to be subject to the risks of any market fluctuation in the value of the securities you receive in-kind until they are sold.

### *Involuntary Redemptions of Your Shares*

If your account balance drops below \$1,000 for Investor Shares (\$500 for IRAs) or \$100,000 for Institutional Shares, because of redemptions, you may be required to sell your shares. The Fund generally will provide you at least 30 days' written notice to give you time to add to your account and avoid the involuntary redemption of your shares. The Fund reserves the right to waive the minimum account value requirement in its sole discretion.

### *Suspension of Your Right to Sell Your Shares*

The Fund may suspend your right to sell your shares or delay payment of redemption proceeds for more than seven days during times when the NYSE is closed, other than during customary weekends or holidays, or as otherwise permitted by the SEC. More information about this is in the SAI.

### *Telephone Transactions*

Purchasing, selling and exchanging Fund shares over the telephone is extremely convenient, but not without risk. Although the Fund has

certain safeguards and procedures to confirm the identity of callers and the authenticity of instructions, the Fund is not responsible for any losses or costs incurred by following telephone instructions it reasonably believes to be genuine. If you or your financial institution transact with the Fund over the telephone, you will generally bear the risk of any loss.

### *How to Exchange Fund Shares*

At no charge, you may exchange Investor Shares, Institutional Shares, or R6 Shares of the Fund for Investor Shares, Institutional Shares, or R6 Shares, respectively, of another GQG Fund by writing to or calling the Fund. Exchanges are subject to the eligibility requirements and the fees and expenses of the GQG Fund you exchange into.

The exchange privilege is not intended as a vehicle for short-term or excessive trading. The Fund may suspend or terminate your exchange privilege if you engage in a pattern of exchanges that is excessive, as determined in the sole discretion of the Fund. For more information about the Fund's policy on excessive trading, see "Excessive Trading Policies and Procedures."

At no charge, you may also convert one class of shares of the Fund directly to another class of shares of the Fund, by writing to or calling the Fund, subject to the eligibility requirements and the fees and expenses of the share class of the Fund you convert into. A conversion between share classes of the Fund is not a taxable event.

You may only exchange or convert shares between accounts with identical registrations (i.e., the same names and addresses). If you purchase shares through a financial intermediary, you may only exchange or convert into a GQG Fund or share class which your financial intermediary sells or services on the platform or program of the intermediary through which you own shares. Your financial intermediary can tell you which GQG Funds and share classes are available through your platform or program.

## **PAYMENTS TO FINANCIAL INTERMEDIARIES**

The Fund and/or the Adviser may compensate financial intermediaries for providing a variety of services to the Fund and/or its shareholders. Financial intermediaries include affiliated or unaffiliated brokers, dealers, banks (including bank trust departments), trust companies, registered investment advisers, financial planners, retirement plan administrators, insurance companies, and any other institution having a service, administration, or any similar arrangement with the Fund, its service providers or their respective affiliates. This section briefly describes how financial intermediaries may be paid for providing these services. For

more information, please see “Payments to Financial Intermediaries” in the SAI.

### *Shareholder Servicing Plan*

The Fund has adopted a shareholder servicing plan that provides that the Fund may pay financial intermediaries for shareholder services in an annual amount not to exceed 0.25% based on the average daily net assets of the Fund’s Investor Shares. The services for which financial intermediaries are compensated may include record-keeping, transaction processing for shareholders’ accounts and other shareholder services.

### *Payments by the Adviser*

From time to time, the Adviser and/or its affiliates, in their discretion, may make payments to certain affiliated or unaffiliated financial intermediaries to compensate them for the costs associated with distribution, marketing, administration and shareholder servicing support for the Fund. These payments are sometimes characterized as “revenue sharing” payments and are made out of the Adviser’s and/or its affiliates’ own legitimate profits or other resources, and may be in addition to any payments made to financial intermediaries by the Fund. A financial intermediary may provide these services with respect to Fund shares sold or held through programs such as retirement plans, qualified tuition programs, fund supermarkets, fee-based advisory or wrap fee programs, bank trust programs, and insurance (e.g., individual or group annuity) programs. In addition, financial intermediaries may receive payments for making shares of the Fund available to their customers or registered representatives, including providing the Fund with “shelf space,” placing it on a preferred or recommended fund list, or promoting the Fund in certain sales programs that are sponsored by financial intermediaries. To the extent permitted by SEC and Financial Industry Regulatory Authority (“FINRA”) rules and other applicable laws and regulations, the Adviser and/or its affiliates may pay or allow other promotional incentives or payments to financial intermediaries.

The level of payments made by the Adviser and/or its affiliates to individual financial intermediaries varies in any given year and may be negotiated on the basis of sales of Fund shares, the amount of Fund assets serviced by the financial intermediary or the quality of the financial intermediary’s relationship with the Adviser and/or its affiliates. These payments may be more or less than the payments received by the financial intermediaries from other mutual funds and may influence a financial intermediary to favor the sales of certain funds or share classes

over others. In certain instances, the payments could be significant and may cause a conflict of interest for your financial intermediary. Any such payments will not change the NAV or price of the Fund's shares. Please contact your financial intermediary for information about any payments it may receive in connection with the sale of Fund shares or the provision of services to Fund shareholders.

In addition to these payments, your financial intermediary may charge you account fees, commissions or transaction fees for buying or redeeming shares of the Fund, or other fees for servicing your account. Your financial intermediary should provide a schedule of its fees and services to you upon request.

## **OTHER POLICIES**

---

### *Excessive Trading Policies and Procedures*

The Fund is intended for long-term investment purposes only and discourages shareholders from engaging in "market timing" or other types of excessive short-term trading. This frequent trading into and out of the Fund may present risks to the Fund's long-term shareholders and could adversely affect shareholder returns. The risks posed by frequent trading include interfering with the efficient implementation of the Fund's investment strategies, triggering the recognition of taxable gains and losses on the sale of Fund investments, requiring the Fund to maintain higher cash balances to meet redemption requests, and experiencing increased transaction costs.

In addition, because the Fund may invest in foreign securities traded primarily on markets that close prior to the time the Fund determines its NAV, the risks posed by frequent trading may have a greater potential to dilute the value of Fund shares held by long-term shareholders than funds investing exclusively in U.S. securities. In instances where a significant event that affects the value of one or more foreign securities held by the Fund takes place after the close of the primary foreign market, but before the time that the Fund determines its NAV, certain investors may seek to take advantage of the fact that there will be a delay in the adjustment of the market price for a security caused by this event until the foreign market reopens (sometimes referred to as "price" or "time zone" arbitrage). Shareholders who attempt this type of arbitrage may dilute the value of the Fund's shares if the prices of the Fund's foreign securities do not reflect their fair value. Although the Fund has procedures designed to determine the fair value of foreign securities for purposes of calculating its NAV when such an event has occurred,

fair value pricing, because it involves judgments which are inherently subjective, may not always eliminate the risk of price arbitrage.

Because the Fund may invest in small- and mid-cap securities, which often trade in lower volumes and may be less liquid, the Fund may be more susceptible to the risks posed by frequent trading because frequent transactions in the Fund's shares may have a greater impact on the market prices of these types of securities.

The Fund's service providers will take steps reasonably designed to detect and deter frequent trading by shareholders pursuant to the Fund's policies and procedures described in this prospectus and approved by the Board. For purposes of applying these policies, the Fund's service providers may consider the trading history of accounts under common ownership or control. The Fund's policies and procedures include:

- Shareholders are restricted from making more than four "round trips," including exchanges, into or out of the Fund within any one-year period. The Fund defines a "round trip" as a purchase or exchange into the Fund by a shareholder, followed by a subsequent redemption out of the Fund, within any ninety-day period, of an amount the Adviser reasonably believes would be harmful or disruptive to the Fund.
- The Fund reserves the right to reject any purchase or exchange request by any investor or group of investors for any reason without prior notice, including, in particular, if the Fund or the Adviser reasonably believes that the trading activity would be harmful or disruptive to the Fund.

The Fund and/or its service providers seek to apply these policies to the best of their abilities uniformly and in a manner they believe is consistent with the interests of the Fund's long-term shareholders. The Fund does not knowingly accommodate frequent purchases and redemptions by Fund shareholders. Although these policies are designed to deter frequent trading, none of these measures alone nor all of them taken together eliminate the possibility that frequent trading in the Fund will occur.

Financial intermediaries (such as investment advisers and broker-dealers) often establish omnibus accounts in the Fund for their customers through which transactions are placed. The Fund has entered into "information sharing agreements" with these financial intermediaries, which permit the Fund to obtain, upon request, information about the trading activity of the intermediary's customers that invest in the Fund. If the Fund or its service providers identify omnibus account level trading

patterns that have the potential to be detrimental to the Fund, the Fund or its service providers may, in their sole discretion, request from the financial intermediary information concerning the trading activity of its customers. Based upon a review of that information, if the Fund or its service providers determine that the trading activity of any customer may be detrimental to the Fund, they may, in their sole discretion, request the financial intermediary to restrict or limit further trading in the Fund by that customer. If the Fund is not satisfied that the intermediary has taken appropriate action, the Fund may terminate the intermediary's ability to transact in Fund shares. When information regarding transactions in the Fund's shares is requested by the Fund and such information is in the possession of a person that is itself a financial intermediary to a financial intermediary (an "indirect intermediary"), any financial intermediary with whom the Fund has an information sharing agreement is obligated to obtain transaction information from the indirect intermediary or, if directed by the Fund, to restrict or prohibit the indirect intermediary from purchasing shares of the Fund on behalf of other persons.

The Fund and its service providers will use reasonable efforts to work with financial intermediaries to identify excessive short-term trading in omnibus accounts that may be detrimental to the Fund. However, there can be no assurance that the monitoring of omnibus account level trading will enable the Fund to identify or prevent all such trading by a financial intermediary's customers. Please contact your financial intermediary for more information.

### ***Customer Identification and Verification***

To help the government fight the funding of terrorism and money laundering activities, federal law requires all financial institutions to obtain, verify, and record information that identifies each person who opens an account.

What this means to you: when you open an account, the Fund will ask your name, address, date of birth, and other information that will allow the Fund to identify you. This information is subject to verification to ensure the identity of all persons opening a mutual fund account.

The Fund is required by law to reject your new account application if the required identifying information is not provided.

In certain instances, the Fund is required to collect documents to fulfill its legal obligation. Documents provided in connection with your application will be used solely to establish and verify your identity.

Attempts to collect the missing information required on the application will be performed by either contacting you or, if applicable, your broker or financial intermediary. If this information cannot be obtained within a reasonable timeframe established in the sole discretion of the Fund, your application will be rejected.

Subject to the Fund's right to reject purchases as described in this prospectus, upon receipt of your application in proper form (or upon receipt of all identifying information required on the application), your investment will be accepted and your order will be processed at the next-determined NAV per share.

The Fund reserves the right to close or liquidate your account at the NAV next-determined and remit proceeds to you via check if it is unable to verify your identity. Attempts to verify your identity will be performed within a reasonable timeframe established in the sole discretion of the Fund. Further, the Fund reserves the right to hold your proceeds until your original check clears the bank, which may take up to 15 days from the date of purchase. In such an instance, you may be subject to a gain or loss on Fund shares and will be subject to corresponding tax implications.

### *Anti-Money Laundering Program*

Customer identification and verification is part of the Fund's overall obligation to deter money laundering under federal law. The Fund has adopted an anti-money laundering compliance program designed to prevent the Fund from being used for money laundering or the financing of illegal activities. In this regard, the Fund reserves the right to: (i) refuse, cancel or rescind any purchase or exchange order; (ii) freeze any account and/or suspend account services; or (iii) involuntarily close your account in cases of threatening conduct or suspected fraudulent or illegal activity. These actions will be taken when, in the sole discretion of Fund management, they are deemed to be in the best interest of the Fund or in cases when the Fund is requested or compelled to do so by governmental or law enforcement authority. If your account is closed at the request of governmental or law enforcement authority, you may not receive proceeds of the redemption if the Fund is required to withhold such proceeds.

### *Unclaimed Property*

Each state has unclaimed property rules that generally provide for escheatment (or transfer) to the state of unclaimed property under various circumstances. Such circumstances include inactivity (e.g., no owner-initiated contact for a certain period), returned mail (e.g., when

mail sent to a shareholder is returned by the post office, or "RPO," as undeliverable), or a combination of both inactivity and returned mail. Once it flags property as unclaimed, the Fund will attempt to contact the shareholder, but if that attempt is unsuccessful, the account may be considered abandoned and escheated to the state.

Shareholders that reside in the state of Texas may designate a representative to receive escheatment notifications by completing and submitting a designation form that can be found on the website of the Texas Comptroller. While the designated representative does not have any rights to claim or access the shareholder's account or assets, the escheatment period will cease if the representative communicates knowledge of the shareholder's location and confirms that the shareholder has not abandoned his or her property. A completed designation form may be mailed to the Fund (if shares are held directly with the Fund) or to the shareholder's financial intermediary (if shares are not held directly with the Fund).

More information on unclaimed property and how to maintain an active account is available through your state or by calling 866-362-8333.

## **DIVIDENDS AND DISTRIBUTIONS**

---

The Fund distributes its net investment income, and makes distributions of its net realized capital gains, if any, at least annually. If you own Fund shares on the Fund's record date, you will be entitled to receive the distribution.

You will receive dividends and distributions in the form of additional Fund shares unless you elect to receive payment in cash. To elect cash payment, you must notify the Fund in writing prior to the date of the distribution. Your election will be effective for dividends and distributions paid after the Fund receives your written notice. To cancel your election, simply send the Fund written notice.

## **TAXES**

---

**Please consult your tax advisor regarding your specific questions about U.S. federal, state and local income taxes.** Below is a summary of some important U.S. federal income tax issues that affect the Fund and its shareholders. This summary is based on current tax laws, which may change. This summary does not apply to shares held in an IRA or other tax-qualified plans, which are not subject to current tax. Transactions relating to shares held in such accounts may, however, be taxable at some time in the future.

The Tax Cuts and Jobs Act (the “Tax Act”) makes significant changes to the U.S. federal income tax rules for taxation of individuals and corporations, generally effective for taxable years beginning after December 31, 2017. Many of the changes applicable to individuals are temporary and only apply to taxable years beginning after December 31, 2017 and before January 1, 2026. There are only minor changes with respect to the specific rules applicable to a regulated investment company, such as the Fund. The Tax Act, however, makes numerous other changes to the tax rules that may affect shareholders and the Fund. You are urged to consult with your own tax advisor regarding how the Tax Act affects your investment in the Fund.

The Fund intends to distribute substantially all of its net investment income and net realized capital gains, if any. The dividends and distributions you receive may be subject to federal, state, and local taxation, depending upon your tax situation. Distributions you receive from the Fund may be taxable whether you receive them in cash or you reinvest them in additional shares of the Fund. Income distributions, including distributions of net short term capital gains but excluding distributions of qualified dividend income, are generally taxable at ordinary income tax rates. Distributions reported by the Fund as long term capital gains and as qualified dividend income are generally taxable at the rates applicable to long-term capital gains and currently set at a maximum tax rate for individuals of 20% (lower rates apply to individuals in lower tax brackets). The Fund’s investment strategies may limit its ability to make distributions eligible for the reduced rates applicable to qualified dividend income. Once a year the Fund (or its administrative agent) will send you a statement showing the types and total amount of distributions you received during the previous year.

You should note that if you purchase shares just before a distribution, the purchase price would reflect the amount of the upcoming distribution. In this case, you would be taxed on the entire amount of the distribution received, even though, as an economic matter, the distribution simply constitutes a return of your investment. This is known as “buying a dividend” and should be avoided by taxable investors.

Each sale of Fund shares may be a taxable event. For tax purposes, an exchange of your Fund shares for shares of a different fund is the same as a sale. The gain or loss on the sale of Fund shares generally will be treated as a short-term capital gain or loss if you held the shares for 12 months or less or as long-term capital gain or loss if you held the shares for longer. Any loss realized upon a taxable disposition of Fund shares held for six months or less will be treated as long-term, rather than short-term, to the extent of any long-term capital gain distributions received (or deemed

received) by you with respect to the Fund shares. All or a portion of any loss realized upon a taxable disposition of Fund shares will be disallowed if you purchase other substantially identical shares within 30 days before or after the disposition. In such a case, the basis of the newly purchased shares will be adjusted to reflect the disallowed loss.

U.S. individuals with income exceeding \$200,000 (\$250,000 if married and filing jointly) are subject to a 3.8% Medicare contribution tax on their "net investment income," including interest, dividends, and capital gains (including capital gains realized on the sale or exchange of shares of the Fund).

The Fund (or its administrative agent) must report to the Internal Revenue Service ("IRS") and furnish to Fund shareholders cost basis information for Fund shares. In addition to reporting the gross proceeds from the sale of Fund shares, the Fund is also required to report the cost basis information for such shares and indicate whether these shares have a short-term or long-term holding period. For each sale of Fund shares, the Fund will permit shareholders to elect from among several IRS-accepted cost basis methods, including the average cost basis method. In the absence of an election, the Fund will use the average basis method as the default cost basis method. The cost basis method elected by the Fund shareholder (or the cost basis method applied by default) for each sale of Fund shares may not be changed after the settlement date of each such sale of Fund shares. Fund shareholders should consult with their tax advisors to determine the best IRS-accepted cost basis method for their tax situation and to obtain more information about how cost basis reporting applies to them. Shareholders also should carefully review the cost basis information provided to them by the Fund and make any additional basis, holding period or other adjustments that are required when reporting these amounts on their federal income tax returns.

The Fund may seek to provide exposure to the investment returns of physical commodities through investments in commodity-based ETFs. Commodity investments generally do not produce qualifying income for purposes of the qualifying income test (as defined in the "Taxes" section of the SAI), which must be met in order for the Fund to maintain its status as a regulated investment company under the Internal Revenue Code of 1986, as amended. The Fund intends to monitor such investments to ensure that any non-qualifying income (when combined with its other investments that produce non-qualifying income) does not exceed permissible limits, but the Fund may not be able to accurately predict the non-qualifying income from these investments. If the Fund did not qualify as a regulated investment company for any taxable year and certain relief provisions were not available, the Fund's taxable income

would be subject to tax at the Fund level and to a further tax at the shareholder level when such income is distributed. Failure to comply with the requirements for qualification as a regulated investment company would have significant negative tax consequences to Fund shareholders (see more information in the “Taxes” section of the SAI).

The Fund may be subject to foreign withholding taxes with respect to dividends or interest the Fund received from sources in foreign countries. Only if more than 50% of the total assets of the Fund consists of foreign securities, the Fund will be eligible to elect to treat some of those taxes as a distribution to shareholders, which would allow shareholders to offset some of their U.S. federal income tax. The Fund (or its administrative agent) will notify you if they make such an election and provide you with the information necessary to reflect foreign taxes paid on your income tax return.

Because each shareholder’s tax situation is different, you should consult your tax advisor about the tax implications of an investment in the Fund.

**More information about taxes is in the SAI.**

## **ADDITIONAL INFORMATION**

---

The Trust enters into contractual arrangements with various parties, including, among others, the Fund’s investment adviser, custodian, transfer agent, accountants, administrator and distributor, who provide services to the Fund. Shareholders are not parties to, or intended (or “third-party”) beneficiaries of, any of those contractual arrangements, and those contractual arrangements are not intended to create in any individual shareholder or group of shareholders any right to enforce the terms of the contractual arrangements against the service providers or to seek any remedy under the contractual arrangements against the service providers, either directly or on behalf of the Trust.

This prospectus and the SAI provide information concerning the Trust and the Fund that you should consider in determining whether to purchase shares of the Fund. The Fund may make changes to this information from time to time. Neither this prospectus, the SAI or any document filed as an exhibit to the Trust’s registration statement, is intended to, nor does it, give rise to an agreement or contract between the Trust or the Fund and any shareholder, or give rise to any contract or other rights in any individual shareholder, group of shareholders or other person other than any rights conferred explicitly by federal or state securities laws that may not be waived.

## **FINANCIAL HIGHLIGHTS**

---

Because the Fund has not commenced operations as of the date of this prospectus, financial highlights are not available.

# Privacy Notice

*This information is not part of the prospectus.*

The Fund recognizes and respects the privacy concerns of its customers. The Fund collects nonpublic personal information about you in the course of doing business with shareholders and investors. "Nonpublic personal information" is personally identifiable financial information about you. For example, it includes information regarding your social security number, account balance, bank account information and purchase and redemption history.

## **The Fund collects this information from the following sources:**

- Information we receive from you on applications or other forms;
- Information about your transactions with us and our service providers, or others;
- Information we receive from consumer reporting agencies (including credit bureaus).

## **What information the Fund discloses and to whom the Fund discloses information.**

The Fund only discloses nonpublic personal information the Fund collects about shareholders as permitted by law. For example, the Fund may disclose nonpublic personal information about shareholders:

- To government entities, in response to subpoenas or to comply with laws or regulations.
- When you, the customer, direct the Fund to do so or consent to the disclosure.
- To companies that perform necessary services for the Fund, such as shareholder servicing centers that the Fund uses to process your transactions or maintain your account.
- To protect against fraud, or to collect unpaid debts.

## **Information about former customers.**

If you decide to close your account(s) or become an inactive customer, we will adhere to the privacy policies and practices described in this notice.

## **How the Fund safeguards information.**

The Fund conducts its business affairs through trustees, officers and third parties that provide services pursuant to agreements with the Fund (for example, the service providers described above). We restrict access to your personal and account information to those persons who need to know that information in order to provide services to you. The Fund or its service providers maintain physical, electronic and procedural safeguards that comply with federal standards to guard your nonpublic personal information.

## **Customers of other financial institutions.**

In the event that you hold shares of the Fund through a financial intermediary, including, but not limited to, a broker-dealer, bank or trust company, the privacy policy of your financial intermediary will govern how your non-public personal information will be shared with non-affiliated third parties by that entity.

THE ADVISORS' INNER CIRCLE FUND III
